You've achieved a lot. A successful career, a family and the lifestyle you've always wanted. That takes hard work.

You've accumulated a considerable amount of wealth. Your life experience has taught you the importance of diversifying your portfolio by investing in various financial instruments.

You also know that you need to have the necessary control to achieve anything in life – including your financial goals.

Yet you don't want your investments to take up your time and attention - both of which you could devote to your family and career instead.

Successful investing should give you the control you need, without demanding too much attention.

At FWD, we believe in using technology to enable people to not only gain more, but also live more.

We've used this principle to create our first single premium investment-linked policy.

It provides you the opportunity to grow your wealth while giving you the control you need and demanding less of your attention.

Gain more, but also live more

FWD Invest Goal 1 has four core features:

Enjoy free cover against death and have every dollar invested

A death benefit of 105% of policy value will be paid if death occurs¹.

100% of your single premium will be used to buy units in the ILP sub-funds you have chosen².

Penalty free withdrawals

Withdraw from your policy anytime at no charge. Simply maintain a minimum balance of 10% of your single premium investment in the initial units account to keep your policy in-force.

On-going charge is kept at 1% p.a.

Only 1% of the initial units account value is deducted yearly if your policy remains in force³.

Curated funds and complimentary auto-rebalancing service

Exclusive opportunity to invest in over 50+ curated funds from globally established fund managers.

Our auto-rebalancing technology tracks and monitors your portfolio to make adjustments based on your predefined fund allocation.

¹For joint life policies, the death benefit will be paid on the death of the last life insured.

²Charges will be deducted via deduction of units after your single premium has been used to purchase units in your chosen funds.

³A plan charge of 1.4% of your single premium paid will be deducted yearly from policy year 1 to 5.

Please refer to policy contract and product summary for details.

With our technology, you don't even have to be a dedicated investor to do well

We understand that you may not have the time and resources to be a dedicated investor, so we're here to help.

Our auto-rebalancing service uses a disciplined approach to investing. Here's how auto-rebalancing can help:

Your original portfolio starts with an equal allocation

Say you begin with a portfolio of an equal split of fund A and fund B with your initial investments.

50%
Fund A

50%
Fund B

A year later, fund A has grown

Fund A's value has grown over time, causing fund A's allocation to increase.

70%
Fund A

30%
Fund B

Auto-rebalancing returns the portfolio to its original state

To return to balance we'll sell some units in fund A (which has appreciated), and buy more units in fund B. Your portfolio is now in line with your original allocation.

50%
Fund A

50%
Fund B

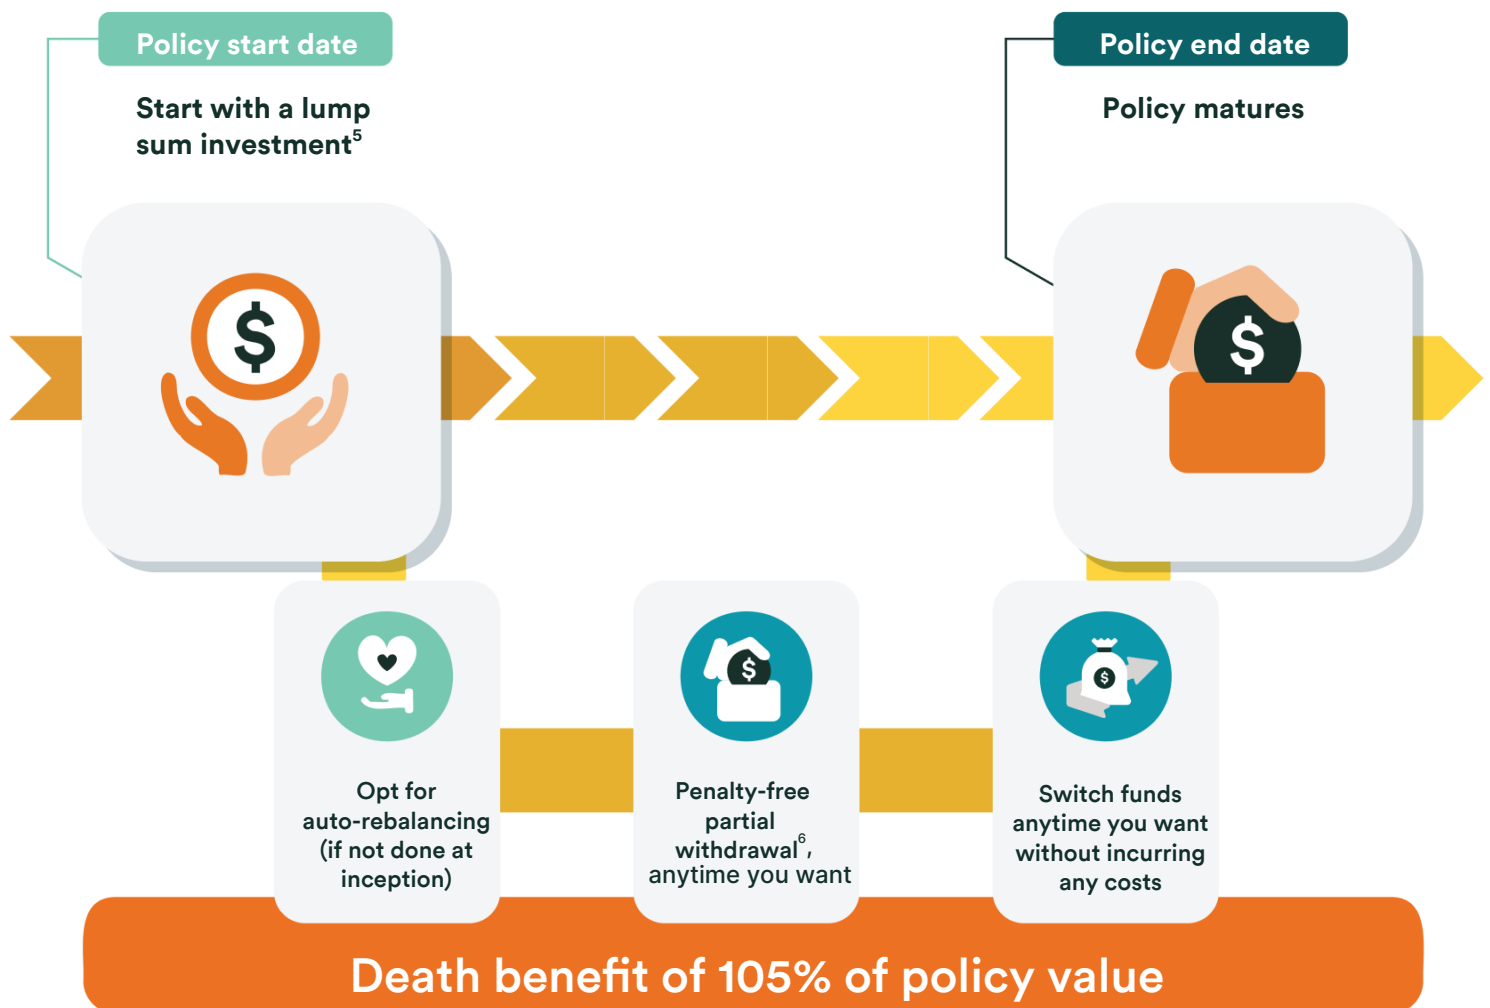

With our complimentary auto-rebalancing service, you don't have to dedicate constant attention to your investment or pay additional charges for transactions, saving you both time and money. You have to opt in to enjoy this complimentary auto-rebalancing service.

The above are purely illustrative and does not take into account fund management fees, specific growth rates or other product and fund related charges, penalties. Please read the "important notes" on the last page of the brochure.

Please refer to policy contract and product summary for details.

Switch or withdraw as you like

Here's how FWD Invest Goal 1 keeps investment flexible for you.

Do note that a surrender penalty will be imposed if surrender occurs within the first 5 policy years.

⁵Charges will be deducted via deduction of units after your single premium has been used to purchase units in your chosen funds.

⁶You will need to maintain a balance of at least 10% of the single premium at effective date in the initial units account.

Please refer to policy contract and product summary for details.

When we won't pay any benefits

At FWD, we do not believe in setting a long list of hidden clauses that prevent us from giving you what is due. So we've simplified our exclusion list to just 2 criteria⁷:

Suicide, self-inflicted act or death arising from pre-existing condition*

We will not pay any death benefit under this policy if the claim arises:

- From suicide, attempted suicide, and intentional self-inflicted act or death due to pre-existing condition; and
- Within one year from the start of your policy cover, or the date you changed the person insured under your policy.

This applies regardless of the mental state of the person insured.

Unlawful acts

We will not pay any death benefit under this policy if the claim arises because you or the person insured deliberately participated in an unlawful act, or failed to act in accordance with the law.

Important notes

1. This brochure does not form a contract between you and FWD Singapore Pte. Ltd. The full terms and conditions are stated in the policy contract.
2. This marketing material is not intended as an offer or recommendation for the purchase of any insurance policy. This policy is underwritten by FWD Singapore Pte. Ltd. and is only available through our distribution partners.
3. It does not have regard to your financial situation, specific investment objectives and any of your particular needs. Kindly obtain the required product disclosures and seek advice from your financial adviser representative before making a commitment to purchase this policy. Investments in this policy are subject to investment risks including the possible loss of the principal amount invested.
4. The value of the units may rise as well as fall. Past performance is not necessarily indicative of future performance and the performance of the ILP sub-fund(s) is non-guaranteed. A potential investor should read the product summary, fund summary and product highlights sheet(s) before deciding to purchase units in the ILP sub-fund(s).
5. As buying a life insurance policy is a long-term commitment, an early termination of the policy usually involves high cost and surrender value, if any, that is payable to you may be zero or less than the total premiums paid. It is also detrimental to replace an existing life insurance policy with a new one as the new policy may cost more or have fewer benefits at the same cost.

*Pre-existing condition

This refers to a medical condition that has one or more of the following characteristics:

- Presented signs or symptoms which you were aware of or should reasonably have been aware of;
- Treatment was recommended or received from a medical practitioner for the medical condition; or
- You have undergone or were recommended to undergo medical test or investigations.

⁷If any specific exclusion applies to certain benefits, we will record the details in an endorsement.
